VERITAS

“Zero-Emissions Electricity” Certificate

We certify that

RECYKLO, spol. s r.o.

has secured electricity consumption in the period
01/01/2021 to 31/12/2021

through zero-emissions electricity
generated in the nuclear power plants of the ČEZ Group.

In Prague, on 14/01/2021

With regard to the supplier's contract with the customer, zero-emission electricity from nuclear sources means electricity generation which does not produce direct CO₂ emissions.
The production of indirect CO₂ emissions and other substances to a limited extent in connection with the generation of this electricity is not ruled out.
The process of supplying zero-emissions electricity from a nuclear source has been checked by BUREAU VERITAS SERVICES CZ, s.r.o.
